

**Attention: Store Manager / Health Food Buyer**

As a regular customer of your store, I am always looking for safe, allergen-free foods to purchase for myself / my family. This is a serious health issue I / we face anytime we eat, everyday of the week.

Are you aware that nearly 12 million Americans suffer food allergies? This segment of the population simply cannot purchase most mainstream products available in today's marketplace.

Please help these loyal customers by adding AllerEnergy Allergen-Free Nutrition Bars to your Health & Nutrition section. Visit [www.allerenergy.com](http://www.allerenergy.com) or contact 513-478-4466 for wholesale/distributor information.

AllerEnergy is made in an allergen-free facility and is the only engineered energy/nutrition bar available free of all common food allergens: peanut, eggs, milk and milk by-products, wheat (gluten), tree nuts, soy, fish, corn, sesame and shellfish.

I / my family like to eat AllerEnergy bars as a school snack, while playing sports or exercising, as midday meal replacement, or whenever I / we want a safe, nutritious treat. The bars come in four delicious flavors: Chocolate Chip, Apple Cinnamon, Cherry Blossom, and Wild Berry.

\*Nearly 12 million Americans suffer from one or more food allergies. This is a growing crisis for children and adults of all ages. There are an estimated 30,000 emergency department visits annually and between 150 to 200 people die each year from food-allergy induced anaphylaxis. Source: Food Allergy and Anaphylaxis Network -- [www.foodallergy.org](http://www.foodallergy.org)

Thanks for listening to the needs of your customers and supporting the local community.
